

October 28, 2023 Statement

Office of Martyrs, Prisoners, and Wounded for the Popular Front for the Liberation of Palestine

Retrieved from <https://t.me/PalestineResist/17074>

Our prisoners are in the crosshairs.

O masses of our Palestinian people, Since the 7th of October 2023, during the Al-Aqsa Flood battle, the zionist occupation has proceeded to transfer prisoners and detainees to an unknown location, notably including the Secretary-General of the Popular Front for the Liberation of Palestine, Comrade Leader Ahmad Saadat and his comrades, as well as the prisoner leader and intellectual Walid Daqqah, who is suffering from a severe health condition. Moreover, the occupation forces are carrying out an arbitrary arrest campaign targeting released prisoners and resistance fighters from among our people in the West Bank.

In this context, the Office of Martyrs, Prisoners, and Wounded for the Popular Front for the Liberation of Palestine issues a call through the media, all social media platforms, international human rights and humanitarian institutions to break this silence which makes them a fundamental partner in all these crimes. It is inconceivable that the lives of prisoners remain constantly threatened by these fascist and Nazi gangs. We fear that our prisoners may become martyrs due to the torture and deprivation inflicted by the zionist prison services, depriving the prisoners of their most basic rights guaranteed by all international and humanitarian laws and conventions.

We call upon the International Committee of the Red Cross and the World Health Organization to fulfill their humanitarian duties, exert efforts to visit the prisoners, learn about their conditions, and provide all necessary medicine and treatment.

We, in the Office of Martyrs, Prisoners, and Wounded for the Popular Front for the Liberation of Palestine, closely follow the conditions of the prisoners and exert great effort to determine their fate, including children, women, elderly, and the sick suffering from heart diseases, diabetes, blood pressure, and kidney issues.

We demand the formation of a swift investigative committee to investigate all the details that led to the martyrdom of a number of prisoners due to torture, beating, and deliberate medical negligence.

We also call upon our Palestinian people to engage in the widest campaign of mobilization and solidarity with the prisoners and detainees in the zionist prisons.

Furthermore, the Office of Martyrs, Prisoners, and Wounded for the Popular Front for the Liberation of Palestine condemns the barbaric and brutal zionist aggression against the Gaza Strip, targeting hospitals, innocent citizens, medical and media crews, and committing massacres against our Palestinian people.

Glory and eternity to the martyrs,
Freedom for the prisoners,
Healing for the wounded,
And victory for our people.
